

FlashStart®
cloud

Content **filter** and malware mitigation
for *MikroTik* RouterOS

The Cloud Technology

The Web Internet Filter is completely cloud-based

FlashStart Cloud requires no additional hardware or software. In 5 minutes you can connect to your existing router and then your web surfing will be safe.

Benefits for everyone

For **Companies** and **Public Administration**

- **filters** out those sites incompatible with working activity
- **blocks** infected sites that cause computer security problems
- **eliminates** the loss of time during working hours
- **reduces** the legal risks of uncontrolled web surfing

For **Schools**

- **filters** and protects students (WIFI included) from Internet dangers
- **protects** from legal risks such as copyright violation and fraud
- **blocks** the access to malware infected sites, that may cause problems to the Computers of the Network

Opportunity for re-sellers

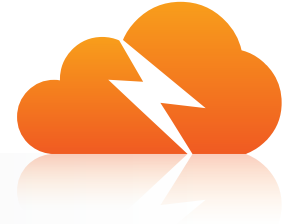

- **protects** and promotes customer loyalty
- **Flashstart** continuously monitors for 24 hours a day, seven days a week
- **user-friendly** interface makes it simple to use

Modern and **simply** interface for desktop, tablet or mobile.
